## Species Requiring Rare Bird Reports to be Submitted to Regional Editor

### Species

Rusty Blackbird [*Euphagus carolinus*]

Brown-headed Cowbird [*Molothrus ater*]

## Special Aspects

This 2019 CBC was marked by an unannounced snow storm that blew in, creating terrible birding conditions. It was heavy snow and limited visibility for most of the morning which really prevented the participants from seeing as many birds as usual. Fortunately, in the afternoon, the snow let up and conditions improved but participants were not able to cover the early areas to see if there were any new species to be found.
